

CHBE 303 Graphics Evaluation Form PRESENTER: _____

On a scale of 5 (*Excellent*) to 1 (*Wow! Needs work*), give a numerical evaluation and a comment for each factor in the presentation. Award “5” if item is not applicable. Max points: 40.

Accessibility

_____ How clear was the overall purpose of the graphic? Could you tell from the title why it had been created and what you were supposed to notice right away?

_____ Do the pattern and arrangement lead your eye without distraction?

_____ Similar items represented the same way?

_____ Consistent graphic hierarchy? (trend line larger than axes, axes larger than grid lines)

_____ Fonts legible? (Can you read the largest and the smallest characters without refocusing your eyes?)

_____ Critical components defined if unfamiliar (no mysterious “R” or “X”)?

_____ Any significant reference or standard omitted?

Comprehensibility and Professional Effectiveness

_____ Are you convinced of the engineer’s expertise?
